### Artist Bio

GoCasual is a rock band with a unique style of guitar-powered, melodic, high-energy music, though they don't shy from stripped-down acoustic songs as well.

GoCasual formed in Maine and is influenced by the punk and rock sound from the early 2000s - upbeat and guitar-driven music with heartfelt lyrics. Having grown up in the forests and along the shores of the pine tree state, the band quickly learned how to make their own fun.

After years of rocking the rocky coast of Maine, recording two EPs, and feeling the itch of manifest destiny, the band relocated to Los Angeles and recorded their first full-length album - All the Old Ghosts. Music has been such a great creative and emotional outlet for the band members, and these songs are drawn from love and the painful life experiences of the past ten years. From failed relationships to near-death experiences, these tracks are very meaningful to the band. Yet, for all the hardships these tunes tell, they are not without hope and are still charged with the energetic rhythms and melodies that defined GoCasual's earlier albums.

Following the onset of the global pandemic in 2020 and the halting of most live music, GoCasual changed gears and bounced back to the east coast. The band is currently rebuilding in Maine and has been hard at work writing new songs that they're excited to share.
